

BPRocs Preferred Windows Layout

Details for opening & positioning the windows
of BPRocs for optimum performance

Catalog Window	BPRocs Window
Options Palette	

Helpful Tips:

To open the Options Palette

Click on the options button  and choose Show Options Palette. You should always have your options palette open and showing.

To resize a window

Position the mouse directly over the edge of the window until you see the bi directional arrows $\leftrightarrow\updownarrow$; left click and drag the window left or right.

To move a window

Left click on the top of the window and drag it to the desired position.

To close BPRocs

Left click on the Exit button  located at the bottom of the main window. Do not use the red X located in the top right corner, this will only close the individual window.
